

# Take your ideas into the cloud with Windows® Azure™

**dotnet**  
SOLUTIONS

Software that gets you noticed

**W**hen you're considering your first venture into the cloud it is important to go with a name you can trust.

Microsoft has made a substantial investment creating the Windows® Azure™ platform, the world's most advanced cloud environment. Azure™ has been designed to work seamlessly with your existing on-premises infrastructure, eliminating up-front capital expenditure and removing the workload from your IT team.

## Contact Dot Net Solutions for all your Microsoft cloud needs:

- Get your cloud ideas off the ground with a rapid and cost effective proof of concept project
- Gain cost savings by moving your existing business software or applications into the cloud
- Create scalable and user friendly cloud solutions to grow or improve your existing business
- Gain an understanding of how cloud solutions can help you with a dedicated team workshop

Working as an MTC partner, Dot Net Solutions builds some of Microsoft's most innovative projects. As one of the first UK partners to bring Azure™ to life, we provide the answer to all your cloud computing needs. Our accelerated Agile development methodology offers the perfect complement, developing solutions rapidly that also change as your business evolves.

“Microsoft recommended Dot Net Solutions to help us create an online tool that would scale with our client base. As data security is paramount for us, we needed highly elastic distribution that combined securely with our on-premises data platform. Azure gives us this flexibility at the front-end without sacrificing any of the power or integrity we have built in at the back-end”

**Richard Burrill - Technical Director, PensionDCisions Ltd**
